

**The Kibworth's Neighbourhood Plan Examination –
Examiner's Request for Further Information**

Following my initial reading of the documentation, I would ask that you provide me with the following:

1. The SEA screening report (which should also cover the HRA screening), details of the consultations carried out with the environmental bodies and copies of their responses in accordance with the PPG requirements. (Paragraph: 028 Reference ID: 11-028-20150209) and Reg 9 of the Environmental Assessment of Plans and Programmes Regs 2004. It is noted that the Basic Conditions report states that they have both been screened out, however, I do need to check the reports and see evidence that the consultations have been carried out in accordance with the Regs.
2. A map showing the Local Green Spaces that can be enlarged on screen so that the numbers are legible. (The map on the PC's website shows the Limits to the Development).
3. A map showing the open space at Warwick Road recreation ground referred to in Policy CSA2 (d).
4. A map showing the location of the community buildings referred to in the introduction to Policy CSA7.
5. A map showing the sites that currently have planning permission for housing which should also show the limits to development.
6. A map showing the North East Kibworth SDA referred to under Policy H11 and the area of open green space that it is proposed to maintain under criterion (d)
7. A map showing the location of the Grand Union Canal referred to under Policy ENV13.
8. A map showing the location of the parade of shops on Leicester Road referred to under Policy E1.
9. It is noted that the NP does not include a Vision statement or objectives. Is this correct?

Note that it is likely that I shall raise further questions and requests for clarification as I progress with the examination.

Rosemary Kidd

Independent Examiner
