

## 13 APPLYING AND REVIEWING THE STRATEGY

### 13.1 Introduction

This section identifies the applications of the Harborough PPS and the mechanisms for reviewing it to ensure that it remains robust and up-to-date.

### 13.2 Strategy applications

The success of the PPS will be determined by how it is used. While the provision of the PPS is led by Harborough District Council, its application and delivery of actions should be the responsibility of the clubs, other key local stakeholders including Sport England and the governing bodies of the pitch sports. The PPS has a number of applications:

#### 13.2.1 Sports development planning

The PPS can be applied to help:

- Highlight, justify and make the case for sports development activities with particular sports, groups and clubs and in particular areas.
- Identify current and future trends and changes in the demand for individual sports and how they are played.
- Inform the work, strategies and plans of sporting organisations active in the area.
- Advocate the need to work with specific educational establishments to secure community use of their site(s).
- Develop and/or enhance school club links by making the best use of school sites where they have spare capacity and are well located to meet demand.

#### 13.2.2 Planning policy

The PPS can be applied to help:

- Develop new, and review the effectiveness of existing, local planning policy (e.g. Local and Neighbourhood Plans) in line with the National Planning Policy Framework (NPPF).
- The implementation of local planning policy to meet the needs of the community in line with the NPPF.

#### 13.2.3 Planning applications

The PPS can be applied to help:

- Inform the development of planning applications which affect existing and/or proposed new sports facilities provision.
- Inform pre-application discussions to ensure any subsequent planning applications maximise their benefit to sport and are developed in line with national and local planning policy.
- Sports clubs and other organisations provide the strategic need for development proposals thereby potentially adding support to their application(s) and saving them resources in developing such evidence.
- The Council to assess planning applications affecting existing and/or proposed new playing pitch provision in line with national and local planning policy.
- Sport England and other parties respond to relevant planning application consultations.

The PPS can also be applied to help the Council to meet other relevant requirements of the NPPF including:

- Taking account of and supporting local strategies to improve health, social and cultural wellbeing for all, and deliver sufficient community and cultural facilities and services to meet local needs.
- Delivering the social, recreational, cultural facilities and services the community needs.
- Planning positively for the development and infrastructure required in the area to meet the objectives, principles and policies of the framework.
- Working with public health leads and health organisations to understand and take account of the health status and needs of the local population, including expected future changes, and any information about relevant barriers to improving health and well-being).

#### 13.2.4 Funding bids

The PPS can be applied to help:

- Provide the evidence base and strategic need to support funding bids by a range of parties to a variety of potential funding sources.
- Inform potential bidders of the likely strategic need for their project.

#### 13.2.5 Facility and asset management

The PPS can be applied to help:

- Ensure a strategic approach is taken to the provision and management of playing pitches.

- Inform the current management, strategies and plans of playing pitch providers e.g. the Council, leisure trusts and educational establishments.
- Share knowledge of how sites are managed and maintained, the lessons learnt and good practice.
- Highlight the potential of asset transfers and ensure any proposed are beneficial to all parties.
- Provide additional protection for particular sites over and above planning policy, for example through deeds of dedication.
- Resolve issues around security of tenure.

#### 13.2.6 Public health

The PPS can be applied to help:

- Understand how the community currently participates in sport, the need for playing pitches and how this may evolve.
- Raise awareness of and tackle any barriers to people maintaining and increasing their participation.
- Highlight and address any inequalities of access to provision within the study area.
- Provide evidence to help support wider health and well-being initiatives.

#### 13.2.7 Co-ordinating resources and investment

The PPS can be applied to help:

- Raise awareness of the current resources and investment (revenue and capital) going into the management, maintenance and improvement of playing pitch provision.
- Co-ordinate the current and any future resources and investment to ensure the maximum benefit to sport and that value for money is secured.
- Ensure the current and any future resources and investment are complimentary and do not result in their inefficient use.

#### 13.2.8 Capital programmes

The PPS can be applied to help:

- Provide the evidence base to justify the protection and investment in playing pitch provision.
- Influence the development and implementation of relevant capital programmes (e.g. school refurbishment and new build programmes).

### **13.3 Monitoring delivery**

A process should be put in place to ensure regular monitoring of how the recommendations and action plan are being delivered. This monitoring should be led by Harborough District Council and supported by all members of, and reported back to, the steering group. Understanding and learning lessons from how the PPS has been applied should also form a key component of monitoring its delivery.

### **13.4 Keeping the strategy robust and up-to-date**

Along with ensuring that the PPS is used and applied, a process should be put in place to keep it robust and up to date. This will expand the life of the PPS, providing people with the confidence to continue to both use it and attach significant value and weight to its key findings and issues, along with its recommendations and actions.

Sport England advocates that the PPS should be reviewed on a regular basis from the date it is formally signed off by the steering group. This will help to maintain the momentum and commitment built up when developing the PPS. Taking into account the time to develop the PPS this should also help to ensure that the original supply and demand information is no more than two years old without being reviewed.

The reviews should highlight:

- How the delivery of the recommendations and action plan has progressed and any changes required to the priority afforded to each action (e.g. the priority of some may increase following the delivery of others).
- How the PPS has been applied and the lessons learnt.
- Any changes to particularly important facilities and/or sites in the area (e.g. the most used or high-quality sites for a particular sport) and other supply and demand information, what this may mean for the overall assessment work and the key findings and issues.
- Any development of a specific sport or particular format of a sport.
- Any new or emerging issues and opportunities.
