1. Introduction

Harborough District Council declared a Climate Emergency in July 2019.

Harborough District Council has adopted the Climate Emergency Action Plan 2022 - 2030. To support this plan, the council have developed a grant scheme that will invest up to £450,000 in local, environmental projects (over the four financial years between April 2023 and March 2027).

The Environmental Grant Scheme will support capital projects that will help to meet the following commitments:

Commitment 3: The Council commits to working with residents and communities to support their actions in reducing emissions and help them increase their resilience to the impacts of climate change.
