

On behalf of Great Bowden Parish Council

Elaboration Related To Policy G1 Settlement Boundary

Section 9 of the revised neighbourhood plan, entitled 'Monitoring & Review,' notes that circumstances affecting the Plan are likely to change over time. Accordingly, the Great Bowden Parish Council will lead regular monitoring of the Plan on at least an annual basis. However, the Settlement Boundary referred to in Policy G1 will not be reviewed annually.

Precedent dictates that the settlement boundary will be assessed—and any necessary corrections put forward for examination—during the formal review held every four years. The next formal review is scheduled for 2029. This review will include an assessment of any approved development sites that have been built-out and occupied between 25th February, 2026 (the start of the Regulation 16 consultation) and the commencement of the 2029 formal review consultation process (the date that Great Bowden Parish Council formally resolves to commence a review of the Great Bowden Neighbourhood Plan).
