July 2026

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

1. Introduction

1.1 This screening report is used to determine whether or not the contents of the draft Husbands Bosworth Neighbourhood Plan as submitted in July 2026 requires a Strategic Environmental Assessment (SEA) in accordance with the European Directive 2001/42/EC and associated Environmental Assessment of Plans and Programmes Regulations 2004.

1.2 The purpose of the Husbands Bosworth Neighbourhood Plan Review is to bring the Husbands Bosworth Neighbourhood Plan up to date and take account of changes both locally and as part of the legislative environment. The review will ensure the neighbourhood gets the right types of development in the right locations.

1.3 The first Neighbourhood Plan (NP) for the Parish of Husbands Bosworth was "Made" by Harborough District Council on 27 May 2021 after successful referendum. The significant policy changes incorporated in the present document, the NP Review, as compared to those in the Made NP, are summarised here.

Policy H1 Settlement Boundary is now Policy G1. The policy and red line boundary have been updated to reflect planning approvals since the NP was Made, the residential allocation in the Review NP and more detail about acceptable development in the countryside.

Policy H2 Residential Site Allocation is now Policy H1 and is a new allocation..

Policy H3 Housing Mix is now Policy H2. It has been updated to reflect the recommendations contained in the Housing Needs Assessment (2024).

Policy H4 Affordable Housing Provision is now Policy H3 Affordable Housing. This policy has also been updated to reflect the recommendations contained in the Housing Needs Assessment (2024).

Policy H5 Windfall Sites is now Policy H3. It is updated from the policy in the Made NP as it strengthens the element of the policy respecting residential amenity by establishing criteria relating to back land development..

Policy H6 Design is now Policy G2 Design Standards. The policy has been updated to reflect a design guidance and codes document commissioned as part of the preparation of the Neighbourhood Plan review.

Policy Env 1 Local Green Space is unchanged from the Made Neighbourhood Plan. New Policy Env 2 Important Open Spaces. This change brings the Plan into line with HDC practice and the national framework.

Policy Env 2 Protection of Sites of Environmental Significance is now two policies – Policy Env 3 Sites of Historical Significance and Policy Env 6 Sites and Features of Natural Environment Significance. The policy has been split to

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

recognise changes in the National Framework and more comprehensive coverage in national and county-level designations since the Made (2021) Neighbourhood Plan was drafted.

Policy Env 3 Ridge and Furrow is now Policy Env 4. The surviving number of Ridge and Furrow fields has reduced since the Made NP and the policy has been updated to emphasise the need for the benefits of development to outweigh the harm.

Policy Env 4 Local Landscape Character is now Policy Env 9. There is no other change from the Made Plan.

Policy Env 5 Biodiversity, Woodland, Hedges and Habitat Connectivity is now Policy ENV 6 Biodiversity across the Neighbourhood Area. It has been updated to incorporate new national and county-level habitat designations into the wildlife corridors, and to have regard for the changes in the national framework about biodiversity net gain.

New Policy Env 5 Non-Designated Heritage Assets supports protection of the 14 structures and buildings in the Leicestershire Historic Environment Record's local list for the Neighbourhood Area, as set out in the national framework.

Policy Env 6 Protection of Important Views is now Policy Env 8. There is no other change from the Made Plan.

Policy Env 7 Biodiversity Protection in New Development is covered by new Policy ENV 6 (see above).

Policy Env 8 Renewable Energy Generation and Conservation is now Policy Env 11 Renewable Energy Generation Infrastructure and reflects the community's stronger support for location-appropriate renewable energy proposals, in line with the current national framework.

New Policy Env 10 Flood Risk Resilience and Climate Change has been added to have regard for updated Environment Agency assessments of risk in the Neighbourhood Area, relevant provisions in national legislation, and changes to the national framework since 2021.

Policy CFA1 The Retention of Community Facilities and Amenities is the same as in the Made Neighbourhood Plan with minor updates on facilities that have closed or opened.

Policy CFA2 Husbands Bosworth Primary School remains the same with the narrative about the School updated.

Policy T1 Parking Development remains the same as the Made NP.

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

Policy T2 Electric Vehicles remains T2 in the NP Review. The requirement for new houses to provide a charging point is now part of the Building Regulations. This has been removed in the new Policy T2 and has been replaced with support for communal charging facilities.

Policy T3 Traffic Management remains the same as in the Made NP.

Policy EC1 Support for Existing Employment Opportunities remains the same as in the Made NP.

Policy EC2 Support for New Employment Opportunities remains the same as in the Made NP.

Policy EC3 Working from Home remains the same as in the Made NP.

Policy EC4 Farm Diversification remains the same as in the Made NP.

Policy E4 Broadband and Mobile Phone Provision remains the same as in the Made NP.

1.4 The Neighbourhood Plan will seek to protect the character, heritage, environmental and visual amenity and encourage a natural mix of housing development, employment opportunities, social and leisure facilities that will ensure the future sustainability and viability of our community. This will be achieved by:

- Allocating a site for measured, proportionate, timely and sustainable residential development up to 2041: eco-friendly in both design and operation and respecting the wishes of the community and design guidelines in the Plan. Smaller windfall sites coming forward through the period of the Neighbourhood Plan will also be considered on their own merits and in light of these criteria.
- Maintaining the high-quality natural environment with protected wildlife interests.
- Retaining and enhancing the character and appeal of the existing Conservation Area and unique assets of the parish, including footpaths, open green spaces and community and recreational facilities.
- Endorsing developments in environmentally acceptable locations that have a positive effect on the sustainability and environment of the parish, including those that mitigate climate change and reduce the village carbon footprint. Opportunities to remove or reduce through-traffic will be sought wherever possible, as will measures to reduce the impact of unavoidable traffic in and through the parish.
- Enhancing and supporting our rural economy through ensuring efficient and timely
- public transport to neighbouring centres and providing an environment for local businesses and home working to flourish in a modern digital age.
- Supporting rural businesses appropriate to the Neighbourhood Area.

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

- 1.5 In order to demonstrate that a draft neighbourhood plan or Order contributes to sustainable development, sufficient and proportionate evidence should be presented on how the draft neighbourhood plan or Order guides development to sustainable solutions. There is no legal requirement for a neighbourhood plan to have a sustainability appraisal. However, qualifying bodies may find this a useful approach for demonstrating how their draft plan or order meets the basic conditions. Material produced as part of the Sustainability Appraisal of the Local Plan may be relevant to a neighbourhood plan.
- 1.6 The SEA Directive and NPPG guidance is clear in that a SEA Environmental Report need only be as detailed as appropriate to the content and level of detail of the neighbourhood plan¹. An environmental report must identify, describe and evaluate the likely significant effects on the environment of implementing the neighbourhood plan policies and of the reasonable alternatives taking into account the objectives and geographical scope of the neighbourhood plan². NPPG guidance goes on to state that reasonable alternatives must also be sufficiently distinct, realistic and deliverable³.
- 1.7 At no point does the SEA legislation or guidance state that reasonable alternatives are a requirement for each and every policy area in a plan and it is considered that a proportionate approach, taking into account legislation and guidance above, should be satisfactorily undertaken.
- 1.8 Regulations state that the Environmental Report should consider whether certain matters are more appropriately assessed at different levels of the planning system to avoid duplication ⁴.
- 1.9 Each policy of the Husbands Bosworth Plan at the date of this assessment has been individually assessed for its effects on Habitat Regulations (and other environmental effects) (see appendix 3). The HRA for the Local Plan 2011 to 2031 has determined that no European sites lie within Harborough District. Outside the district, the nearest European site is Rutland Water SPA and Ramsar site, which is located 7km to the north-east of the district boundary but 22km from the main population centres (Market Harborough and Thurnby/Scraftoft) as the district is largely rural with a fairly sparsely distributed population.
- 1.10 The HRA for the Local Plan concluded in 2017 that:
It is possible to conclude that development in the Harborough Local Plan will not have a likely significant effect on any internationally important wildlife sites either alone or in combination with other plans and projects. These conclusions are based on the findings of this screening which conclude that no Natura 2000 sites are located within the district and no impact pathways have been identified linking Natura 2000 sites outside of the district e.g. Rutland Water SPA/Ramsar to development within Harborough District. Therefore an Appropriate Assessment is not required
- 1.11 The CJEU ruling (People Over Wind and Sweetman v Coillte Teoranta (C-323/17) (April 2018)) states that:

Strategic Environmental Assessment Screening Report Husbands Bosworth Neighbourhood Plan Review

“In the light of all the foregoing considerations, the answer to the question referred is that Article 6(3) of the Habitats Directive must be interpreted as meaning that, in order to determine whether it is necessary to carry out, subsequently, an appropriate assessment of the implications, for a site concerned, of a plan or project, it is not appropriate, at the screening stage, to take account of the measures intended to avoid or reduce the harmful effects of the plan or project on that site” (paragraph 40).

This SEA Screening Report dated April 2026 for the Husbands Bosworth Neighbourhood Plan Review does not take account of measures intended to avoid or reduce the harmful effects of the Plan. The harmful effects, if any, have been considered in the preparation of the Screening Report of April 2026 and the LPA believes they have been demonstrated to be nil or very minor to the natural and historic environment, Natura 2000 sites and Habitat Regulations.

The legislation set out below outlines the regulations that require the need for this screening exercise. Section 4 provides a screening assessment of the likely significant environmental effects of the Neighbourhood Plan and the need for a full SEA.

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

2. Legislative Background

- 2.1 The basis for Strategic Environmental Assessments and Sustainability Appraisal legislation is [European Directive 2001/42/EC](#) and was transposed into English law by the [Environmental Assessment of Plans and Programmes Regulations 2004](#), or SEA Regulations. Detailed Guidance of these regulations can be found in the Government publication '[A Practical Guide to the Strategic Environmental Assessment Directive](#)' (ODPM 2005).
- 2.2 Schedule 2 of the [Neighbourhood Planning \(General\) Regulations 2012](#) makes provision in relation to the Habitats Directive. The Directive requires that any plan or project, likely to have a significant effect on a European site, must be subject to an appropriate assessment. To achieve this, paragraph 1 prescribes a basic condition that the making of a neighbourhood plan is not likely to have a significant effect on a European site or a European offshore marine site. Paragraphs 2 to 5 of the Schedule amend the Conservation of Habitats and Species Regulations 2010 so as to apply its provisions to neighbourhood development orders and neighbourhood plans. In particular paragraph 4 inserts new regulation 78A which provides that a neighbourhood development order may not grant planning permission for development which is likely to have a significant effect on a European site or a European offshore marine site.
- 2.3 Schedule 3 of the [Neighbourhood Planning \(General\) Regulations 2012](#) makes provision in relation to the [Environmental Impact Assessment \(EIA\) Directive](#). The Directive requires that EIA development must be subject to a development consent process. To enable this, Schedule 3 prescribes a basic condition that applies where development which is the subject of a proposal for a neighbourhood development order is of a type caught by the EIA Directive, and applies the relevant provisions of the [Town and Country Planning \(Environmental Impact Assessment\) Regulations 2011\(3\)](#) ("the EIA Regulations") with appropriate modifications ([regulation 33](#) and paragraphs [1 to 4 and 6 of Schedule 3](#)). Paragraphs 5 and 7 to 13 of Schedule 3 correct errors in the EIA Regulations
- 2.4 This report focuses on screening for SEA and the criteria for establishing whether a full assessment is needed in light of the Sustainability Appraisal and Strategic Environmental Assessment undertaken for the Local Plan. A copy of the SA Report can be viewed here; [Harborough District Council - Sustainability Appraisal \(SA\) and Strategic Environmental Assessment \(SEA\)](#)

Strategic Environmental Assessment Screening Report Husbands Bosworth Neighbourhood Plan Review

3. Criteria for Assessing the Effects of Neighbourhood Plans (the 'plan')

3.1 Criteria for determining the likely significance of effects referred to in Article 3(5) of Directive 2001/42/EC are set out below:

1. The characteristics of neighbourhood plans ("plan"), having regard, in particular, to

- the degree to which the plan sets a framework for projects and other activities, either with regard to the location, nature, size and operating conditions or by allocating resources,
- the degree to which the plan influences other plans and programmes including those in a hierarchy,
- the relevance of the plan for the integration of environmental considerations in particular with a view to promoting sustainable development,
- environmental problems relevant to the plan,
- the relevance of the plan for the implementation of community legislation on the environment (e.g. plans and programmes linked to waste-management or water protection).

2. Characteristics of the effects and of the area likely to be affected, having regard, in particular, to

- the probability, duration, frequency and reversibility of the effects,
- the cumulative nature of the effects,
- the trans boundary nature of the effects,
- the risks to human health or the environment (e.g. due to accidents),
- the magnitude and spatial extent of the effects (geographical area and size of the population likely to be affected),
- the value and vulnerability of the area likely to be affected due to:
 - special natural characteristics or cultural heritage,
 - exceeded environmental quality standards or limit values,
 - intensive land-use,
 - the effects on areas or landscapes which have a recognised national, Community or international protection status.

Source: Annex II of SEA Directive 2001/42/EC

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

4.2 The table below shows the assessment of whether the Neighbourhood Plan (NP) will require a full SEA. The questions below are drawn from the diagram above which sets out how the SEA Directive should be applied.

Table 1: Establishing the Need for SEA		
Stage	Y/N	Reason
1. Is the NP subject to preparation and/or adoption by a national, regional or local authority OR prepared by an authority for adoption through a legislative procedure by Parliament or Government? (Art. 2(a))	Y	The preparation of and adoption of the NP is allowed under The Town and Country Planning Act 1990 as amended by the Localism Act 2011. The NP has been prepared by Husbands Bosworth Parish Council (as the 'relevant body') and will be 'made' by HDC as the local authority. The preparation of NPs is subject to the following regulations: The Neighbourhood Planning (General) Regulations 2012 and The Neighbourhood Planning (referendums) Regulations 2012
2. Is the NP required by legislative, regulatory or administrative provisions? (Art. 2(a))	Y	Whilst the Neighbourhood Plan is not a requirement and is optional under the provisions of The Town and Country Planning Act 1990 as amended by the Localism Act 2011, it will if 'made', form part of the Development Plan for the District. It is therefore important that the screening process considers whether it is likely to have significant environmental effects and hence whether SEA is required under the Directive.
3. Is the NP prepared for agriculture, forestry, fisheries, energy, industry, transport, waste management, water management, telecommunications, tourism, town and country planning or land use, AND does it set a framework for future development consent of projects in Annexes I and II (see Appendix 2) to the EIA Directive? (Art 3.2(a))	N	Whilst the NP covers a wide range of land use issues and allocations, it does not set the framework for future development consent of projects in Annexes I and II to the EIA Directive (see Appendix 2 for list).
4. Will the NP, in view of its likely effect on sites, require an assessment for future development under Article 6 or 7 of the Habitats Directive? (Art. 3.2 (b))	N	Husbands Bosworth NP Review allocates one site for housing (policy H1). A housing site options appraisal (Appendix 2 of the documents submitted at the time of the SEA screening) has been undertaken to support the decision-making process and assess the reasonable alternatives. There are 22 known potential development sites within the Husbands Bosworth Neighbourhood Area. These have been identified following a review of Harborough District Council's Strategic Housing and Economic Land Availability Assessment (SHELAA) and sites submitted to the Neighbourhood Plan Call for Sites. Each site was assessed both through the SHELAA and an independent site assessment process, commissioned through Locality's technical support programme (AECOM report a Appendix 3)

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

	The site taken forward as part of the review plan is SHELAA site reference 21/8181 (Land off Welford Road adjoining Firs Farmstead) The sustainability Appraisal for the Local Plan determined that a negligible effect was expected for Biodiversity (SA2). A negative effect for cultural heritage was expected for the site with a minor positive effect for flooding . Headline results of the Sustainability Appraisal for the Local Plan can be found at appendix 3 of this report. https://www.harborough.gov.uk/directory_record/731/sustainability_appraisals_and_strategy_environmental_assessments_-_new_local_plan Overall, the sites are unlikely to have a substantial effect on the Natura 2000 network of protected sites. The Plan does allocate one site for housing (55 dwellings in total) and contains policies that influence where development might take place, the type of housing that should be encouraged and the design of new development. It is unlikely that the policies will cause significant detrimental effects on the historic and natural environments The Husbands Bosworth Plan contains policies to protect assets of significant historic or environmental importance. A Habitat Regulations Assessment (HRA) has been undertaken as part of the Local Plan preparation. The assessment concludes that the Local Plan will not have a likely significant effect on any internationally important wildlife sites either alone or in conjunction with other plans and projects. These conclusions are based on the fact that no such sites are located within the district and no impact pathways were identified linking internationally important wildlife sites outside of the district (e.g. Rutland Water SPA/Ramsar site) to development within Harborough District. The Local Plan HRA considered but dismissed the following sites from the analysis due to a combination of distance and absence of impact pathways linking it to the District: • Ensor's Pool SAC; • The Upper Nene Valley Gravel Pits SPA and Ramsar; and • River Mease SAC. The HRA looked into the potential effects of the plan on Rutland Water SPA and Ramsar site in more detail. However, it concluded that the Local Plan will not have a likely
--	--

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

		significant effect on the site as no impact pathways were identified linking it to development within Harborough District. Given that the Husbands Bosworth lies some 35 km from Rutland Water SPA/Ramsar, it is considered that the NP will not affect any Natura 2000 sites in line with the findings of the HRA. Therefore, it is concluded that a full Appropriate Assessment is not deemed to be required. The Local Plan Habitat Regulations Assessment is available at: https://www.harborough.gov.uk/downloads/file/8937/habitats_regulations_assessment_report
5. Does the NP determine the use of small areas at local level, OR is it a minor modification of a PP subject to Art. 3.2? (Art. 3.3)	Y	Determination of relatively small sites at local level.
6. Does the NP set the framework for future development consent of projects (not just projects in annexes to the EIA Directive)? (Art 3.4)	Y	The NP is to be used for determining future planning applications
7. Is the NP's sole purpose to serve the national defence or civil emergency, OR is it a financial or budget PP, OR is it co-financed by structural funds or EAGGF programmes 2000 to 2006/7? (Art 3.8, 3.9)	N	
8. Is it likely to have a significant effect on the environment? (Art. 3.5)	N	The Local Plan 2011 to 2031 does not allocate a housing site to Husbands Bosworth. The submission version Local Plan 2020 to 2041 allocates 105 dwellings as part of site HB1 Neighbourhood Plans are permitted to allocate sites in addition to any Local Plan housing allocation. The Neighbourhood Plan also contains policies to permit and influence infill housing. The level of development anticipated through these policies is not going to impact on any Natura 2000 site. There are no Sites of Special Scientific Importance (SSSIs) in the Neighbourhood Area, but two lie just beyond the Area boundary and their Impact Risk Zones as mapped by Natural England have been identified. Two Local Green Spaces have been identified and receive protection as part of ENV1.

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

		Other sites of local environmental importance have been identified and receive protection as part of the policies of the Plan. Husbands Bosworth has a designated conservation area. Policy ENV3 of the Neighbourhood Plan considered the importance of heritage assets. Important buildings are listed and mapped. Any harm arising from a development proposal or a change of use requiring planning approval affecting it will need to be balanced against its significance as a heritage asset. Policy ENV5 identifies non designated heritage assets and ENV6 identifies and seeks to protect sites and features of natural environment significance. Where flood risk is an issue in Husbands Bosworth policy ENV10 helps address this. New development will be required to demonstrate that the development will not increase the risk of flooding and provide a surface water drainage strategy. Ridge and Furrow fields are also identified as heritage assets and for protection from harm in ENV4.
--	--	---

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

5. Screening Outcome

- 5..1 As a result of the assessment in Section 4, it is unlikely there will be any significant environmental effects arising from the Husbands Bosworth Neighbourhood Plan review as submitted at the date of this assessment. As such, it is the opinion of the Council that the Husbands Bosworth Neighbourhood Plan does not require a full SEA to be undertaken.
- 5..2 The Environment Agency, Natural England and Historic England will be consulted on this Screening Report prior to the Councils determination and their responses will be made available through the Husbands Bosworth Neighbourhood Plan Evidence base.
- 5..3 If the issues addressed in the Neighbourhood Plan should change then a new screening process will need to be undertaken determine whether an SEA will be required. Please contact Harborough District Council for advice in this circumstance.

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

Appendix 1

SSSI/LISTED BUILDINGS/SAMs WITHIN THE PARISH OF HUSBANDS BOSWORTH REVIEW

Other Settlement features:	Occurrence
Conservation Area	Husbands Bosworth is a large village situated close to the county border with Northamptonshire near the sources of the Rivers Avon and Welland. It lies at the crossing of the A5199 Leicester to Northampton Road with the A4304 Market Harborough to Lutterworth main road. These two routes have had a strong influence on the village. The Conservation Area covers most of the village with an extension eastwards to include Bosworth Hall (Listed Grade II*) its grounds and the Roman Catholic Church within them. The basic form of the village is a strong line along the High Street (A4304 main road) but with two small lanes and the A5199 Welford Road leading to the south and several roads leading off to the north some of which are looped roads and others linked . The A5199 to the north of the High Street consists of two one-way sinuous but roughly parallel roads joining as they leave the village: Bell Lane, continuous with the Welford Road leading from the High Street, and Berridges Lane leading to it. Other roads, Mowsley Road, Church Street and Honeypot Lane lead from the High Street in the east to loop and link. This pattern of roads over the large square area gives surprises and unexpected corners of interest as there is no obvious core of the original village, rather the remnant older buildings are dispersed and appear unexpectedly amongst later development. Within the blocks made by the road pattern are areas of recent housing development.

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

	The contrast of the wide long High Street with the narrower lanes and junctions on either side gives Husbands Bosworth its character, together with the abrupt southern edge on ridgetops overlooking the meadowlands (under which passes the tunnelled Grand Union Canal), and the enclosed parkland of Bosworth Hall at the eastern edge. The buildings of Husbands Bosworth are diverse, intermingled with more modest ones and include many larger 18th and 19th century properties. Although red brick and slate predominate with some modest Regency buildings in the High Street and 18th century brickwork with coloured or lighter headers in Honeypot Lane, there remain examples of the 17th century timberframe tradition, of Swithland slates, and of thatch. The oldest building in Bell Lane, Wheatsheaf House, is a substantial 15th century timberframed building which incorporates some stonework. Apart from this example and the mediaeval church there is no stone here, the village lying just beyond the stone belt to the east. Although a few mud walls remain, the boundary walls are mainly of red brick of varying heights. With the variety of buildings and complexity of street pattern there are a number of significant vistas and open spaces. These include: the entrance from the east with parkland to the south and wide verges and the pretty 19th century lodge cottage to Bosworth Hall straight ahead; and the green and open space around the A5199 south of the High Street. This is overlooked by the Victorian school, some Regency cottages, The Bell Inn and Turville Memorial Hall of 1895. The vista eastwards along the High Street is closed by the mediaeval hurch and its churchyard at the junction of Church Lane and High Street. Other spaces at road junctions overlooked by interesting buildings are where Honeypot Lane opens into Mowsley Lane, the green at the junction of Church Lane and Mowsley Road and in Berridges Lane where the footpath alongside the grounds of Fernie Lodge and Hunters Lodge meets the
--	---

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

Appendix 2

Annex I

1. Crude-oil refineries (excluding undertakings manufacturing only lubricants from crude oil) and installations for the gasification and liquefaction of 500 tonnes or more of coal or bituminous shale per day.
2. Thermal power stations and other combustion installations with a heat output of 300 megawatts or more and nuclear power stations and other nuclear reactors (except research installations for the production and conversion of fissionable and fertile materials, whose maximum power does not exceed 1 kilowatt continuous thermal load).
3. Installations solely designed for the permanent storage or final disposal of radioactive waste.
4. Integrated works for the initial melting of cast-iron and steel.
5. Installations for the extraction of asbestos and for the processing and transformation of asbestos and products containing asbestos: for asbestos-cement products, with an annual production of more than 20 000 tonnes of finished products, for friction material, with an annual production of more than 50 tonnes of finished products, and for other uses of asbestos, utilization of more than 200 tonnes per year.
6. Integrated chemical installations.
7. Construction of motorways, express roads (1) and lines for long-distance railway traffic and of airports (2) with a basic runway length of 2 100 m or more.
8. Trading ports and also inland waterways and ports for inland-waterway traffic which permit the passage of vessels of over 1 350 tonnes.
9. Waste-disposal installations for the incineration, chemical treatment or land fill of toxic and dangerous wastes.

(1) For the purposes of the Directive, 'express road' means a road which complies with the definition in the European Agreement on main international traffic arteries of 15 November 1975.

(2) For the purposes of this Directive, 'airport' means airports which comply with the definition in the 1944 Chicago Convention setting up the International Civil Aviation Organization (Annex 14).

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

Annex II

1. Agriculture

- (a) Projects for the restructuring of rural land holdings.
- (b) Projects for the use of uncultivated land or semi-natural areas for intensive agricultural purposes.
- (c) Water-management projects for agriculture.
- (d) Initial afforestation where this may lead to adverse ecological changes and land reclamation for the purposes of conversion to another type of land use.
- (e) Poultry-rearing installations.
- (f) Pig-rearing installations.
- (g) Salmon breeding.
- (h) Reclamation of land from the sea.

2. Extractive industry

- (a) Extraction of peat.
- (b) Deep drillings with the exception of drillings for investigating the stability of the soil and in particular:
 - geothermal drilling,
 - drilling for the storage of nuclear waste material,
 - drilling for water supplies.
- (c) Extraction of minerals other than metalliferous and energy-producing minerals, such as marble, sand, gravel, shale, salt, phosphates and potash.
- (d) Extraction of coal and lignite by underground mining. (e) Extraction of coal and lignite by open-cast mining. (f) Extraction of petroleum.
- (g) Extraction of natural gas.
- (h) Extraction of ores.
- (i) Extraction of bituminous shale.
- (j) Extraction of minerals other than metalliferous and energy-producing minerals by open-cast mining.

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

- (k) Surface industrial installations for the extraction of coal, petroleum, natural gas and ores, as well as bituminous shale.
- (l) Coke ovens (dry coal distillation).
- (m) Installations for the manufacture of cement.

3. Energy industry

- (a) Industrial installations for the production of electricity, steam and hot water (unless included in Annex I).
- (b) Industrial installations for carrying gas, steam and hot water; transmission of electrical energy by overhead cables.
- (c) Surface storage of natural gas.
- (d) Underground storage of combustible gases.
- (e) Surface storage of fossil fuels.
- (f) Industrial briquetting of coal and lignite.
- (g) Installations for the production or enrichment of nuclear fuels.
- (h) Installations for the reprocessing of irradiated nuclear fuels.
- (i) Installations for the collection and processing of radioactive waste (unless included in Annex I).
- (j) Installations for hydroelectric energy production.

3. Processing of metals

- (a) Iron and steelworks, including foundries, forges, drawing plants and rolling mills (unless included in Annex I).
- (b) Installations for the production, including smelting, refining, drawing and rolling, of nonferrous metals, excluding precious metals.
- (c) Pressing, drawing and stamping of large castings.
- (d) Surface treatment and coating of metals.
- (e) Boilermaking, manufacture of reservoirs, tanks and other sheet-metal containers.
- (f) Manufacture and assembly of motor vehicles and manufacture of motor-vehicle engines.
- (g) Shipyards.
- (h) Installations for the construction and repair of aircraft.
- (i) Manufacture of railway equipment.
- (j) Swaging by explosives.
- (k) Installations for the roasting and sintering of metallic ores.

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

5. Manufacture of glass

6. Chemical industry

- (a) Treatment of intermediate products and production of chemicals (unless included in Annex I).
- (b) Production of pesticides and pharmaceutical products, paint and varnishes, elastomers and peroxides.
- (c) Storage facilities for petroleum, petrochemical and chemical products.

7. Food industry

- (a) Manufacture of vegetable and animal oils and fats.
- (b) Packing and canning of animal and vegetable products.
- (c) Manufacture of dairy products.
- (d) Brewing and malting.
- (e) Confectionery and syrup manufacture.
- (f) Installations for the slaughter of animals.
- (g) Industrial starch manufacturing installations.
- (h) Fish-meal and fish-oil factories.
- (i) Sugar factories.

8. Textile, leather, wood and paper industries

- (a) Wool scouring, degreasing and bleaching factories.
- (b) Manufacture of fibre board, particle board and plywood.
- (c) Manufacture of pulp, paper and board.
- (d) Fibre-dyeing factories.
- (e) Cellulose-processing and production installations.
- (f) Tannery and leather-dressing factories.

9. Rubber industry

Manufacture and treatment of elastomer-based products.

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

10. Infrastructure projects

- (a) Industrial-estate development projects.
- (b) Urban-development projects.
- (c) Ski-lifts and cable-cars.
- (d) Construction of roads, harbours, including fishing harbours, and airfields (projects not listed in Annex I).
- (e) Canalization and flood-relief works.
- (f) Dams and other installations designed to hold water or store it on a long-term basis.
- (g) Tramways, elevated and underground railways, suspended lines or similar lines of a particular type, used exclusively or mainly for passenger transport.
- (h) Oil and gas pipeline installations.
- (i) Installation of long-distance aqueducts.
- (j) Yacht marinas.

11. Other projects

- (a) Holiday villages, hotel complexes.
- (b) Permanent racing and test tracks for cars and motor cycles.
- (c) Installations for the disposal of industrial and domestic waste (unless included in Annex I).
- (d) Waste water treatment plants.
- (e) Sludge-deposition sites.
- (f) Storage of scrap iron.
- (g) Test benches for engines, turbines or reactors.
- (h) Manufacture of artificial mineral fibres.
- (i) Manufacture, packing, loading or placing in cartridges of gunpowder and explosives.
- (j) Knackers' yards.

12. Modifications to development projects included in Annex I and projects in Annex II undertaken exclusively or mainly for the development and testing of new methods or products and not used for more than one year

Strategic Environmental Assessment Screening Report Husbands Bosworth Neighbourhood Plan Review

Appendix 4

LPA screening for the requirement for a SEA for Husbands Bosworth Neighbourhood Plan Review

The policies of the Husbands Bosworth Neighbourhood Plan at the date of this assessment have been individually assessed to determine the effects on historic and natural environment, Natura 2000 sites and HRA.

The table below demonstrates that in the opinion on the Local Planning Authority the policies of the Husbands Bosworth Neighbourhood Plan do not give potential for significant detrimental effects on local historic or environmental sites, Natura 2000 sites, or Habitat Regulations.

It is therefore the opinion of the Local Planning Authority that a full Strategic Environmental Assessment is not required for the Husbands Bosworth Neighbourhood Plan.

Strategic Environmental Assessment Screening Report Husbands Bosworth Neighbourhood Plan Review

HUSBANDS BOSWORTH NEIGHBOURHOOD PLAN POLICY	RELEVANT POLICY IN HARBOROUGH DISTRICT LOCAL PLAN (LP)/NPPF	RELATIONSHIP BETWEEN HUSBANDS BOSWORTH NEIGHBOURHOOD PLAN AND LOCAL PLAN	POTENTIAL FOR LIKELY SIGNIFICANT EFFECTS ON NATIONAL AND LOCAL HISTORIC AND/OR ENVIRONMENTAL DESIGNATIONS	CONCLUSIONS RELATING TO STRATEGIC ENVIRONMENTAL ASSESSMENT	POTENTIAL FOR LIKELY SIGNIFICANT EFFECTS ON NATURA 2000 SITES WITHIN 50KM (NEAREST ENSOR'S POOL SAC APPROX. 30KM)	CONCLUSION RELATING TO HABITAT REGULATIONS (HRA)
POLICY G1: SETTLEMENT BOUNDARY	NPPF para. 55 – Promoting sustainable development in rural areas.. Policy GD2 Settlement Development	G1 can be considered to be in general conformity as it allows for development proposals within the area identified NPPF supports sustainable development in rural areas. The methodology for determining the boundary is set out and reasonable. The boundary incorporates the newly proposed site allocation in H!	There may be some potential limited impacts but the policy is unlikely to result in significant effects	No significant effects identified. Detailed mitigation will be considered through the Development Management process	None	No negative effect. Development of this scale and on these sites will not adversely impact on Natura 2000 sites.
POLICY G2: DESIGN STANDARDS	NPPF: Promoting sustainable transport. Promoting healthy communities. LP Policy GD8 deals with good design in new housing developments including parking and access to footways and cycle routes. GD8 also considers that new	G2 is considered to be in general conformity with LP and NPPF in setting out a design code and guidance as part of appendix 1 for building design principles and emphasising the importance of the design affecting the street scene, enhancing the existing character.	The policy is unlikely to result in significant effects as it promotes design of new development which reflects the character and historic context of its surroundings.	No significant effects identified.	None.	No negative effect arising from this policy.

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

	development must respect and enhance the local character.					
POLICY H1: RESIDENTIAL SITE ALLOCATION	LP Policy H1 considers housing allocations. The Local Plan does not specifically allocate dwelling to Husbands Bosworth GD2 allows for settlement development within or adjacent to settlements NPPF: Delivering sustainable development / delivering a wide choice of high quality homes (para 55 promotes sustainable development in rural areas).	H1 should be considered to be in general conformity with LP policy. NDPs can allocate housing over and above those in the Local Plan. The sites have been assessed against reasonable alternatives. There is no indication that the sites will cause significant detrimental harm to the natural or historic environment.	The site is previously developed land. The policy is unlikely to result in significant effects. As part of identifying allocations and potential housing sites the QB undertook a housing site assessment and considered the reasonable alternative sites.	No significant effects are identified. Constraints relating to heritage and environmental assets have been considered as part of the proposal.	None	No negative effect. Development of this limited scale will not adversely impact on identified HRA sites.
POLICY H2: HOUSING MIX	NPPF – Delivering a wide choice of high quality homes – para. 50 LP has policy H5 which requires developments to deliver a suitable mix of housing.	H2 is considered to be in general conformity with the LP and NPPF in seeking to deliver an appropriate mix of housing types to reflect local needs based on local and evidence in the Housing Needs Assessment (Appendix 3)	The policy is unlikely to result in significant effects as it only relates to mix of homes.	No significant effects identified.	None.	No negative effect arising from this policy.

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

POLICY H3: AFFORDABLE HOUSING	LP policy H2 deals with affordable housing	H3 specifies when affordable housing must be provided, the incorporation into development and the availability to local peoples in line with the Housing Needs Assessment (Appendix 3)	The policy is unlikely to result in significant effects as it only relates to delivery of affordable homes on housing sites with priority to locals	No significant effects identified.	None.	No negative effect arising from this policy.
POLICY H4: WINDFALL HOUSING	NPPF: Delivering sustainable development and delivering a wide choice of high quality homes (para 55). LP Policy GD2 allows for unallocated settlement development within or adjacent to settlements.	H4 recognises that throughout the NP period small scale housing sites may come forward. Settlement Boundaries have been defined to enable application of the policy. The policy sets out the considerations that should be taken into account in the determination of such applications from the other policies in the Plan.	There may be some limited impacts but the policy is unlikely to result in significant effects. Only a limited number of dwellings are likely to come forward under the policy and any planning application will be determined in line with the criteria set out in the policy and other NP policies.	Limited impact. No significant effects are identified. The policy includes the necessary safeguards to ensure that development (within limits to development) takes into account the character of the village, its size and form	None.	No negative effect arising from this policy.

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

POLICY ENV1: LOCAL GREEN SPACES	NPPF – Promoting healthy communities (para 99 to para 103). LP Policy GI4 considers Local Green Space and its inclusion in NDPs	Policy ENV1 is considered to be in general conformity with the LP and NPPF in identifying LGS and setting out policy for their protection. The sites are listed in the policy	Potential for limited positive impact as the policy identifies and protects open land that is of demonstrable value to the community and of outstanding significance for their natural and historical or environmental features.	Possible positive impacts. No significant effects identified.	None.	No negative effect arising from this policy which seeks to protect local green space.
--	---	---	---	--	--------------	--

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

POLICY ENV 2: IMPORTANT OPEN SPACES	NPPF para 98 to 103. Local Plan policy GI2	Policy ENV2 can be considered to be in conformity with the Local Plan. The policy seeks to protect open space sites that are valued by the community unless equivalent or better provision is made	Possible positive impact as the policy requires development proposals to replace lost open space with equivalent. The sites are listed in the policy	Possible positive impact. No significant effects identified.	None.	No negative effect arising from this policy.
--	---	--	---	--	-------	--

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

POLICY ENV 3: SITES AND FEATURES OF HISTORIC ENVIRONMENT SIGNIFICANCE	Local Plan policy HC1 deals with built heritage NPPF chapter 16 deals with heritage	Policy ENV3 can be considered to be in general conformity with the Local Plan policy HC1 in that it allows changes to the setting of historical environment assets to be considered against the significance of the asset. The assets are listed in figure 8	Potential for limited positive impact as the policy identifies and protects heritage assets that are of demonstrable value to the community and of outstanding significance for their historical features. The Locally listed buildings are identified in the policy.	Possible positive impact. No significant effects identified.	None	No negative effect arising from this policy which seeks to protect locally significant heritage assets
--	--	---	---	--	------	--

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

POLICY ENV3: SITES AND FEATURES OF NATURAL ENVIRONMENT SIGNIFICANCE –	Policy CS8: Protecting and Enhancing Green Infrastructure. NPPF: 11 Conserving and enhancing the natural environment. Emerging LP will have policy relating to biodiversity a protection and improvement.	Policy ENV3 is considered to be in general conformity with the NPPF and LP as it seeks to protect species rich sites and avoid harm to biodiversity	Possible positive impact as the policy requires development proposals are required to conserve and enhance areas of biodiversity.	Possible limited positive impact. No significant effects identified.	None.	No negative effect arising from this policy as it promotes biodiversity.
POLICY ENV 4: RIDGE AND FURROW	NPPF: 12 . Conserving and enhancing the historic environment. LP Policy GI5 relates to protection of locally designated biodiversity and geodiversity sites.	ENV4 is considered to be in general conformity with the NPPF and LP as it seeks to protect ridge and furrow, part of the historic landscape. Figures 9.3 map the ridge and furrow	The policy is unlikely to result in significant effects as it aims to protect ridge and furrow as part of the historic landscape.	No significant effects identified.	None.	No negative effect arising from this policy which gives protection to historic landscape feature.
POLICY ENV 5: NON-	Policy HC1: Built Heritage.	Policy ENV5 is considered to be in general conformity	Possible positive impact as the policy requires	No significant effects identified.	None.	No negative effect arising

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

DESIGNATED HERITAGE ASSETS	NPPF: 16 . Conserving and enhancing the historic environment.	with NPPF and Local Plan in seeking to protect sites which are of historical significance locally. The significant sites are listed in the policy	development proposals are required to protect sites with local historic or architectural significance.			from this policy.
POLICY ENV 6: SITES AND FEATURES OF NATURAL ENVIRONMENT SIGNIFICANCE	Policy CS8: Protecting and Enhancing Green Infrastructure. NPPF: 11 Conserving and enhancing the natural environment. Emerging LP will have policy relating to biodiversity a protection and improvement.	Policy ENV6 is considered to be in general conformity with the NPPF and LP as it seeks to protect species rich sites and avoid harm to biodiversity	Possible positive impact as the policy requires development proposals are required to conserve and enhance areas of biodiversity. Requirement for 10% BNG is considered as part of the policy.	Possible limited positive impact. No significant effects identified.	None.	No negative effect arising from this policy as it promotes biodiversity.

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

POLICY ENV 7: BIODIVERSITY ACROSS THE NEIGHBOURH OOD AREA	NPPF: Conserving and enhancing the natural environment. LP Policy GI5 relates to protection of locally designated biodiversity and geodiversity sites.	ENV7 is considered to be in general conformity with the NPPF and LP as it seeks to protect Biodiversity, trees, woodland and hedgerows of value.	The policy is unlikely to result in significant effects as it gives protection to hedgerows and other natural assets of local value.	Limited impact. No significant effects identified.	None.	No negative effect arising from this policy which gives protection to trees and hedgerows.
--	--	--	--	--	-------	--

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

POLICY ENV 8: PROTECTION OF IMPORTANT VIEWS	NPPF: 15 conserving and enhancing the natural environment/ 16 conserving and enhancing the historic environment. LP policy GD5 refers to safeguarding public views, skylines and landmarks.	ENV8 is considered to be in general conformity with LP and NPPF in seeking to safeguard important views and vistas as identified by the community. These vistas are identified on figure 14 and defined in the policy.	The policy is unlikely to result in significant effects as it is affording important views protection.	No significant effects identified.	None.	No negative effect arising from this policy as it seeks to protect defined views/ vistas.
--	---	--	--	------------------------------------	-------	---

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

POLICY ENV 9: LOCAL LANDSCAPE CHARACTER	NPPF: 12 . Conserving and enhancing the historic environment. LP Policy GI5 relates to protection of locally designated biodiversity and geodiversity sites.	ENV9 is considered to be in general conformity with the NPPF and LP as it seeks to protect the historic landscape. Figure 16 maps the area to which the policy applies	The policy is unlikely to result in significant effects as it aims to protect the historic landscape.	No significant effects identified.	None.	No negative effect arising from this policy which gives protection to historic landscape feature.
--	--	--	---	------------------------------------	-------	---

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

POLICY ENV 10: FLOODING: RISK, RESILIENCE AND CLIMATE CHANGE	NPPF: Meeting the challenge of climate change, flooding and coastal change. Local Plan policy CC3 deals with flood risk and mitigation	Policy ENV10 is considered to be in general conformity with the LP and NPPF in setting the policy context to ensure that development takes into account implications in relation to local flood risk, takes measures to incorporate appropriate mitigation and SuDS.	The policy is unlikely to result in significant effects given the scale of development set out in the plan and the policy approach set out to ensure that areas at most risk of flooding are not developed.	No significant effects identified.	None.	No negative effect arising from this policy.
POLICY ENV 11: RENEWABLE ENERGY GENERATION INFRASTRUCTURE	NPPF: 14 Meeting the challenge of climate change, flooding and coastal change. LP Policy CC1 considers climate change and CC2 renewable energy generation	Policy ENV11 is considered to be in general conformity with the LP and NPPF setting out local criteria which renewable energy schemes must meet and the location in which they will have the least impact	The policy is unlikely to result in significant effects as it has safeguards to ensure schemes are acceptable in terms of impacts and scale.	No significant effects identified.	None.	No negative effect arising from this policy.

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

POLICY CFA1: THE RETENTION OF COMMUNITY FACILITIES AND AMENITIES	NPPF: Supporting a prosperous rural economy. LP Policy HC2 and HC3 deals with community facilities, public houses village shops and post offices	CFA1 is considered to be in general conformity with the LP and NPPF in aiming to prevent the loss of or adverse effects on community facilities and services. It sets out the evidence needed to accompany any development proposal involving the loss of such a service/facility. The community facilities to be considered are defined in the policy	The policy is unlikely to result in significant effects as scope for redevelopment of such premises and its scale is likely to be limited. Applications will also be assessed against other NP policies.	No significant effects identified.	None.	No negative effect arising from this policy.
POLICY CFA2: HUSBANDS BOSWORTH PRIMARY SCHOOL	NPPF: Supporting a prosperous rural economy LP Policy HC2 sets out policy relating to community facilities. The supporting text defines schools as a community facility	CFA2 seeks to protect and/or enhance an important local asset from loss or adverse impacts. It seeks to enable the expansion of the school within criteria.	The policy is unlikely to result in significant effects.	No significant effects identified.	None.	No negative effect arising from this policy.
POLICY T1: PARKING DEVELOPME NT	NPPF: Promoting sustainable transport. Promoting healthy communities.	T1 is considered to be in general conformity with the LP and NPPF in seeking to limit the impact of traffic generation and parking.	The policy is unlikely to result in significant effects.	No significant effects identified.	None.	No negative effect arising from this policy

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

	LP Policy GD8 considers as part of the design policy the need to ensure safe, efficient and convenient movement of all highway users (including cyclists and pedestrians).					
POLICY T2: ELECTRIC VEHICLES	NPPF: Meeting the challenge of climate change. LP policy CC1 considers climate change	Policy T2 can be considered in general conformity with the LP and NPPF as it contributes towards climate change initiatives	The policy is unlikely to result in significant effects.	No significant effects identified.	None.	No negative effect arising from this policy
POLICY T3: TRAFFIC MANAGEMENT	NPPF: Promoting sustainable transport. Promoting healthy communities. LP Policy GD8 deals with good design in new housing developments including parking and access to footways and cycle routes	Policy T3 can be considered to be in general conformity with the Local Plan as it considers parking, highway access and improvement and creation of footpaths and cycleways	The policy is unlikely to result in significant effects.	No significant effects identified.	None.	No negative effect arising from this policy

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

POLICY EC1: SUPPORT FOR EXISTING EMPLOYMENT OPPORTUNITIES	NPPF: Supporting a prosperous rural economy Local Plan policy BE3 considers the opportunities to provide new business areas	EC1 is considered to be in general conformity with the LP and NPPF in so far it aims to protect existing employment sites in the neighbourhood area providing certain criteria are met.	The policy is unlikely to result in significant effects given that it relates to protection rather than new employment development.	No significant effects identified.	None.	No negative effect arising from this policy.
POLICY EC2: SUPPORT FOR NEW EMPLOYMENT OPPORTUNITIES	NPPF: Supporting a prosperous rural economy Local Plan policy BE3 considers the opportunities to provide new business areas	EC2 is considered to be in general conformity with the LP and NPPF in so far it aims to provide for new employment sites in the neighbourhood area providing certain criteria are met.	The policy is unlikely to result in significant effects given that it relates to protection rather than new employment development.	No significant effects identified.	None.	No negative effect arising from this policy.

Strategic Environmental Assessment Screening Report

Husbands Bosworth Neighbourhood Plan Review

POLICY EC3: WORKING FROM HOME	NPPF: Supporting a prosperous rural economy. LP Policy BE1 and BE3 consider existing employment areas	EC3 can be considered to be in general conformity with the LP and NPPF in supporting working from home providing residential amenity is protected and any associated development is subservient and does not detract from the existing building.	The policy is unlikely to result in significant effects given the policy specifies that any development will need to be subservient and in character.	No significant effects identified.	None.	No negative effect arising from this policy

Husbands Bosworth Neighbourhood Plan Review

POLICY EC5: BROADBAND & MOBILE PHONE PROVISION	NPPF: Supporting high quality communications infrastructure. LP Policy IN3 considers the support for provision of infrastructure alongside new development.	EC5 is considered to be in general conformity with the LP and NPPF in supporting the provision infrastructure to ensure the provision of super-fast broadband providing it is sensitively located.	The policy is unlikely to result in significant effects given the requirement for sensitive location of such installations.	No significant effects identified.	None.	No negative effect arising from this policy
